## EB 100 M

- monolithic solid carbide single-fluted gun drills
- no brazed points and therefore higher stability
- 20 - 30% higher feed rates possible
- shrinkable
- MQL shank end
- for extra tight drilling tolerances
- up to 75xD with only one tool
- suitable for most materials

All gun drills must have support for the pilot hole.  
Gun drills must never operate at full speed without  
support in the machine shop.
